Laminated log blanks

Eurofins Expert Services Oy has assessed the laminated log blanks manufactured by DEN Finland Oy at the Finnlamelli mill located in Alajärvi, Finland. The assessment is based on an inspection of the product, production process and factory production control.

As a result of this assessment Eurofins Expert Services Oy confirms, that the laminated log blanks conform to the compliance criteria given in the standard SFS 5973. This certificate is restricted to laminated log blanks where the grain direction of all pine (*Pinus sylvestris*) or spruce (*Picea abies*) lamellas is the same as the length direction of the product and when the adhesive of type I defined in the standard EN 15425 is used. Eurofins Expert Services Oy confirms the following characteristics of the laminated log blanks:

The strength class is C18, C16, C14 or non-load bearing
The reaction to fire class is D-s2,d0
The formaldehyde class is E1

The products covered by this certificate shall be marked as follows:

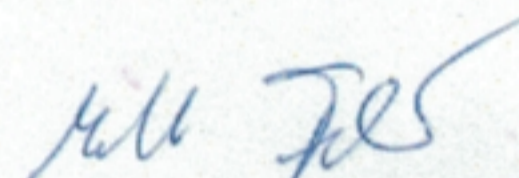

EUFI29-19006059-C
C18, C16 or C14 (or non-load bearing)

This certificate is valid until January 7, 2025 on condition that the product is not essentially changed and the manufacturer and Eurofins Expert Services Oy have a valid contract on quality control. To check the validity of this certificate, www.sertifikaattihaku.fi. Other conditions are listed on the reverse side of the certificate.
